About

Graduated with a master in engineering and currently in a 7-months training for career transition into Artificial intelligence & Data Science field. Hard working and self-motivated person with recognized communication and problem solving skills, holder of Belgian residence permit.

Looking for opportunities to use my new technical skills and maximizing customer value creation using data as Data Scientist.

Skills

- Python
- Git / Terminal
- NumPy / Pandas
- Matplotlib/Seaborn / Plotly
- Flask
- Streamlit / Bubble
- Keras /
- Heroku / Docker
- Spacy / NLTK
- SQL
- Power BI

Work Experience

DATA SCIENTIST TRAINEE, BeCode Brussels AI Data Bootcamp | January 2022 - Present

- Developed and deployed a machine learning model to predict real estate sales price in Belgium for Immo Eliza.

- Made a 3D house modeling based on LIDAR data.

- Prepared a dashboard for Accenture's restaurant chain clients using Power BI.

- Created a machine learning model to cluster Enron's emails using LDA topic modeling.

- Developed an app using the GPT-3 API to enhance KPMG's ideation workshops.

- Created a PyTorch image classifier tool using to digitize clothing for a sustainable fashion app, transfer learning

SCI SUPERUSER & DISPATCHER, DHL Supply Chain Mechelen | January 2021 – January 2022

- Worked closely with the IT department to solve user issues.

- Helped the SCI development team to improve user experience for data analysis purposes.

- Analyzed delivery routes to decrease transportation costs by improving consolidation rate.

Soft Skills

- Fast Learner
- Communication
- Teamwork
- Critical thinking
- Adaptability

Languages

- English   Professional working proficiency
- Dutch   Professional working proficiency
- Spanish   Limited working proficiency
- French   Elementary working proficiency
- Turkish   Native

Certificates

- Python Fundamentals Track - DataCamp (Online)
- SQL Fundamentals Track DataCamp (Online)
- SQL - 365 Data Science (Online)
- Image Processing with Keras in Python -DataCamp (Online)
- Deep Learning Track DataCamp (Online)
- Power BI - 365 Data Science (Online)
- Interuniversitaire Taaltest Nederlands voor Anderstaligen (Dutch B2)

CUSTOMER SERVICE REPRESENTATIVE, DHL Freight Kontich | September 2019 – January 2021

- Translated customer's needs into detailed requirements.
- Analyzed carriers' KPI and milestones and made decisions to improve customer satisfaction.

FOREST ENGINEER, The Ministry of Forest Turkey| May 2008 – January 2017

- Created a calculation tool to determine the necessary seed amount to product certain amount of sapling. This leaded to 30% percent decreasing of sapling maintenance cost of all nurseries in Turkey.
- Analyzed the yearly sapling and seedling usage across Turkey and prepared production plan for the next year.
- Prepared the annual unit price analysis tables and annual budgets of nurseries.
- Leaded the preparation and implementation of multiple reforestation projects.

Education

- Master of Engineering - MEng, Forest Engineering, Suleyman Demirel University / Turkey | 2012 - 2016
- Bachelor of Engineering, BE, Forest Engineering Ankara University / Turkey | 2000 - 2006
