About

Graduated with a master in engineering and currently in a 7-months training for career transition into Artificial intelligence & Data Science field. Hard working and self-motivated person with recognized communication and problem solving skills.

I hold Belgian residence permit which allows to work in Belgium and EU territory. Looking for opportunities to utilise my new technical skills and maximizing customer value creation using data as Data Scientist or Data Engineer.

Skills

- Python
- Git / Terminal
- NumPy / Pandas
- Matplotlib/Seaborn / Plotly
- Flask
- Streamlit / Bubble
- Keras /Tensorflow
- Heroku / Docker
- Spacy / NLTK
- SQL
- Power BI

Work Experience

DATA SCIENTIST TRAINEE, BeCode Brussel AI Data Bootcamp | Jan 2022 - Present

- Developed and deployed a machine learning model to predict real estate sales price in Belgium.

- 3D house modelling based on LIDAR data

- Created a dashboard for Accenture's restaurant chain clients using Power BI

- Enron's emails clustering using LDA topic modeling.

- Developed an app using the GPT-3 API to enhance KPMG's ideation workshops.

- Created a PyTorch image classifier tool using transfer learning to digitize clothing for a sustainable fashion app.

SCI SUPERUSER & DISPATCHER, DHL Supply Chain Mechelen | January 2021 – January 2022

- Worked closely with the IT department to solve user issues.

- Helped the SCI development team to improve user experience for data analysis purposes.

- Analyzed delivery routes to decrease transportation costs by improving consolidation rate.

Soft Skills

- Fast Learner
- Communication
- Teamwork
- Critical thinking
- Dependability
- Adaptability

Languages

- English   Professional working proficiency
- Dutch   Limited working proficiency
- Spanish   Limited working proficiency
- French   Elementary working proficiency
- Turkish   Native

Certificates

- Python Fundamentals Track - DataCamp (Online)
- SQL Fundamentals Track DataCamp (Online)
- Image Processing with Keras in Python -DataCamp (Online)
- Deep Learning Track DataCamp (Online)
- Power BI - 365 Data Science (Online)
- SQL - 365 Data Science (Online)
- Interuniversitaire Taaltest Nederlands voor Anderstaligen (Dutch B2)

CUSTOMER SERVICE REPRESENTATIVE, DHL Freight Kontich | September 2019 – January 2021

- Understood customer pain points and translated these into detailed requirements.

- Analyzed carriers' KPI and milestones and making decisions to improve customer satisfaction.

FOREST ENGINEER, The Ministry of Forest Turkey| May 2008 – January 2017

- Created a calculator to determine the necessary seed amount to product certain amount of sapling. This leaded to 30% procent decreasing of sapling maintenance cost of all nurseries in Turkey.

- Analyzed the yearly sapling and seedling usage across Turkey and prepared production plan for the next year.

- Prepared the annual unit price analysis tables and annual budgets of nurseries.

- Leaded the preparation and implementation of multiple reforestation projects

Education

- Master of Engineering - MEng, Forest Engineering, Suleyman Demirel University / Turkey | 2012 - 2016

- Bachelor of Engineering, BE, Forest Engineering Ankara University / Turkey | 2000 - 2006
